

Andrea Kukulich

Andrea Kukulich-Flynn is a recognized leader with over 30 years of experience in the maritime industry. She began her career at Northwest Airlines, managing sales and account relationships across cruise lines and commercial shipping crew travel, later shifting focus to ship and rig crew logistics and medical care. In these roles, she built lasting relationships with vessel owners and shipping agents across the U.S.

Andrea later joined DA-Desk in Dubai, where she brought valuable operational insight and a strong network of maritime contacts, contributing to the company's global client engagement and growth.

Her hands-on experience with two ship cleaning companies in New Orleans exposed her to the risks and inefficiencies of traditional vessel cleaning methods—an insight that led her to CLIIN Robotics and its safer, more sustainable solutions.

Currently serving as Commercial Manager, Americas, at CLIIN Robotics, Andrea is responsible for driving strategic partnerships and advancing the adoption of CLIIN's robotic cleaning technologies across the maritime and energy sectors.
