

Dr. Tjibbe Bouma

Dr. Tjibbe Bouma is the Founder and Strategic Advisor of SPRINT Robotics Collaborative, where he also served as Chairman for over 9 years. He is currently the CEO and owner of Quasset BV, a consultancy company dedicated to pushing the frontiers in industrial inspection and asset integrity through advanced technological solutions tailored to client needs. Trained as a physicist, he holds a PhD in Solid State Physics from Utrecht University. Dr. Bouma has played key roles in advancing technology development, implementation, and service delivery in non-destructive testing, inspection, and asset integrity management.
