

Xavier Quintanilla

Chief Strategy Officer (CSO) & Robotics Integrity SME — HIBOT

Xavier Quintanilla, Chief Strategy Officer and Robotic Integrity SME guiding the strategic direction of Hibot's expansion and commercialization globally. Xavier brings extensive experience in NDT robotic integration and strategic commercialization. Fostering collaboration and driving digital transformation in operational environments—helping clients improve performance, safety, and decision-making through robotics-enabled integrity platforms.

He previously served as Program Manager for the SPRINT Robotics consortium and led several advanced robotic solutions companies forward, helping major companies adopt robotic inspection technologies. Today he supports the industry through Hibot, in redefining asset integrity and accelerating digital transformation across critical infrastructure through robotics.
